

# Rocket Synergy 2

## CENTRIFUGAL EVAPORATOR

### Dri-Pure®

Anti-bumping technology preventing cross-contamination

### Multiple Sample Formats

including flasks, ASE vials, and large volume batches up to 5L

### Solvent Compatibility

Low to medium BP solvents, including water, DSM, methanol, TFA, DMF, organic solvents

### Heating Technology

Utilizes steam to maximize drying efficiency while chamber design eliminates potential for moisture in your samples
